PROFILE

I am a hardworking software developer who always meets deadlines. I am dedicated to supporting my team and work hard to contribute to our success. I quickly learn from my mistakes and strive to improve every day. I am determined to do my job well and take pride in delivering quality work on time. I enjoy working in a team environment and believe in the power of collaboration. My goal is to be a valuable member of your company and help achieve our common goals.

WORK EXPERIENCE

REAL ESTATE

Ascat Properties

2023 April - 2023 August

I've worked at a real estate company called Ascat Properties for 4 months as a Sales Executive, where I excelled by understanding clients' needs and explaining property details effectively. I consistently reached my sales goals and demonstrated strong negotiation skills. Through this experience, I developed excellent communication and customer service abilities. Now, I am excited to transition into a new field where I can leverage these skills, learn new ones, and continue to grow professionally. I am eager to embrace new challenges and opportunities that will help build my career and contribute meaningfully to my new team.

Projects

Front-End Developer Project: Portfolio Website

- **Technologies Used**: HTML, CSS, JavaScript, Git, GitHub
- **Description**: Created a personal portfolio website showcasing my projects, skills, and experience.
- **HTML**: Structured the site with semantic HTML for better accessibility and SEO.
- **CSS**: Styled the website with a responsive design using Flexbox and Grid layouts.
- **JavaScript**: Implemented interactive features like form validation and a responsive navigation menu.
- **Responsive Design**: Ensured the site works well on various devices using media queries.
- **Version Control**: Managed the project with Git and hosted it on GitHub.

Youtube-Clone using HTML and CSS

- **Technologies Used**: HTML, CSS
- **Description**: Developed a YouTube clone from scratch using only core HTML and CSS.
- **HTML**: Structured the entire layout and components using various HTML tags.
- **CSS**: Styled the application to closely mimic YouTube's interface, focusing on responsiveness and visual appeal.
- **Component Design**: Created and styled key components such as the video player, navigation bar, and video thumbnails.
- **Learning Experience**: Enhanced my understanding of front-end development and honed my skills in HTML and CSS through this project.
